SAMANA is a modern yacht encompassing a host of accessories for the ultimate holiday. She effortlessly blends potent performance and unrivalled opulence, ideal for those who favour a fast paced life.

The aft deck area is well served by an al fresco dining area and full wet bar. A comfortable sofa seating area and large sun bed make the aft deck a perfect area for relaxing whether cruising at high speeds, or at a tranquil anchorage.

Staircases to both port and starboard of the transom give excellent access to the large bathing platform for tender operations, or as an ideal watersports base allowing easy usage of the yachts water toys. The foredeck area also features a large sunpad with adjustable headrests and sunshade.

SAMANA's elegant and sophisticated interior features dark American walnut and soft neutral fabrics throughout.

The main deck incorporates the vast open saloon which is comprised of the bridge, the dining table and the large comfortable sofa. The saloon has a unique rotating glass sunroof which opens to allow fresh breezes and natural light to filter through.

SAMANA features a flexible accommodation layout for 8 guests which offers a King sized master, a Queen sized VIP, a convertible twin cabin (which also creates a queen sized bed), plus an upper and lower berth children's cabin. Each guest cabin has its own ensuite bathroom facilities with showers and the cabins are equipped with all the amenities a guest would expect of a luxury yacht. All areas of the vessel are air conditioned with individual climate control units available in each stateroom.

The yacht is run by a professional crew of 4 who deliver service to the highest level. The crew area is located on the lower deck within the galley area separated from guest accommodation areas.
